“Being immersed in such an intense cultural experience has opened my eyes to how diverse, complex and global the world of business is. I had the opportunity to network with people from different countries, understand how companies from different industries operate, learn from professors with great experience and have a great time. I’ve made friends for a lifetime. The time I spent at UNI have significantly improved my worldview and impacted my perspective on the future.”

Rane Aguiar Sant’Ana, Universidade de Brasilia
